The Project Management Professional (PMP)® Exam Prep 2021 Course

Are you ready for the Project Economy? Do you have the skills you need to turn ideas into reality? Are you able to successfully lead teams under pressure to produce business value? Can you do this and relax enough to sleep at night? The PMP® Certification is recognized throughout the world as validation of your preparedness to lead in this highly competitive and dynamically evolving environment!

The new exam content is half agile, and yes, you are still going to need the basics. Traditional project management works when properly applied. An agile mindset can and should be applied to any project environment regardless of the development lifecycle!

The authorized exam preparation content produced by the Project Management Institute (PMI) is available through a variety of methods and vendors who have become Authorized Training Partners (ATPs) with PMI. The core material is the same from vendor to vendor and is independent of the delivery method. That is why It is imperative that you choose wisely when plotting your course to certification.

There is strong value and a clear return on your investment when you choose a high-quality instructor-led program, especially if you have a busy schedule. A complicated work-life balance can make exam preparation extremely difficult! Having access to an experienced coach who can help you along the way, who will push you when necessary, which may be just what you need to climb that next step. We look forward to leading you on that journey!
